FOR ALL COURSES (required)

Course Number and Title: Math 111 Linear Math Modeling

Date of Departmental Approval:

FOR MODIFIED COURSES (required if modifying a course)

- Summary of the Modification:
Remove the prerequisite Math Placement Test score.
- Text before Modification (title, repeat status, catalog description, etc.):
- Text after Modification (title, repeat status, catalog description, etc.):
- Reason for the Modification: **In an effort to keep up with the evolving role of Mathematics in the academic environment, we are updating our Math 111 course to make it more attractive and useful to students. The course will provide an alternative to Math 106 which has no placement test prerequisite. We feel the Math 111 placement test is not necessary. In order to be competitive with Math 106, we would like to remove the requirement for Math 111. This is the only modification we are requesting.**
