Catalog

Description:

Systematic and comprehensive understanding of key concepts and skills essential to effective project management in international development. The skill set learned is oriented towards a 'how-to-do/functional' approach that can be applied to projects on environment, poverty reduction, green growth, health, climate change adaptation and mitigation, social development and more. Notes: This course will co-meet with EVPP 572. Graduate students in this course will be graded according to a different rubric than the undergraduate students.

Justification:

Does this course cover material which crosses into another department? No
