College/School: College of Science

Department / Academic Unit: Biology

Jointly Owned Program? No

Justification

What: Modifying the core and performing other general clean-up to the concentrations.
 Why: To adjust the core in light of recent course updates and to address some issues that keep arising in advising sessions.

What: Adding specific biology elective options.

Why: To aid degree audits.

Total Credits Required: Total credits: minimum 120

Registrar's Office Use Only - Program Code:

SC-BS-BIOL

Registrar/IRR Use Only – Program CIP Code 26.0101 - Biology/Biological Sciences, General.

Admission Requirements:

Admissions

University-wide admissions policies can be found in [Undergraduate Admissions Policies](#).

To apply for this program, please complete the [George Mason University Admissions Application](#).

Program-Specific Policies:

Policies

Students must fulfill all [Requirements for Bachelor's Degrees](#), including the [Mason Core](#).

Important information and departmental policies are listed in the [Department of Biology](#).

[BIOL 308 Foundations of Ecology and Evolution \(Mason Core\) or MLAB 300 Science Writing \(Mason Core\) meet the writing intensive requirement for this major.](#)

~~BIOL 308 Foundations of Ecology and Evolution (Mason Core) meets the writing intensive requirement for this major. Transfer students who have transferred in BIOL 308 Foundations of Ecology and Evolution (Mason Core) but did not meet the writing intensive requirement may take MLAB 300 Science Writing (Mason Core) to meet the writing intensive requirement.~~

For policies governing all undergraduate degrees, see [AP.5 Undergraduate Policies](#).

Important Program Requirements

- Students may not apply more than **4 8** credits of lower-level BIOL prefixed courses (or equivalent transfer credit at the 100 to 200-level) toward the BS without Concentration [electives option](#) if taken before the successful completion of [BIOL 213](#) Cell Structure and Function.
- Biology majors must earn a minimum grade of 'C' in all [Core Courses under the "Biology Core Courses" header](#). ~~biology core courses~~. A grade of 'C' or better must be earned in [BIOL 213](#) Cell Structure and Function in order to advance to other core requirements.
- ~~Students may repeat BIOL 213 Cell Structure and Function once, but a second time only with permission from the Department of Biology.~~

- Students may **not** count [BIOL 124](#) Human Anatomy and Physiology I and/or [BIOL 125](#) Human Anatomy and Physiology II toward any [Biology, BS](#) **biology-major** requirement.
- Students **who take BIOL 300 BioDiversity** may **not** count [BIOL 303](#) Animal Biology and/or [BIOL 304](#) Plant Biology **as toward any** biology [electives](#). **major requirement.**
- **At least** 44 credits must be in biology [core and elective](#) coursework.
- [BIOL 493](#) Honors Research in Biology, [BIOL 495](#) Directed Studies in Biology, and [BIOL 497](#) Special Problems in Biology do not satisfy the requirements of the BS degree which state that students must complete at least two upper division courses that include a laboratory. The courses do, however, count as non-laboratory electives. **The total limit for BIOL 493 Honors Research in Biology, BIOL 495 Directed Studies in Biology, and BIOL 497 Special Problems in Biology combined is 6 credits toward the 44 credits required for the BS.**
 - The total limit for BIOL 493 Honors Research in Biology, BIOL 495 Directed Studies in Biology, and BIOL 497 Special Problems in Biology combined is 6 credits toward the 44 credits required for the BS.

Several optional concentrations are available; details on each can be found in the Requirements tab.

Teacher Licensure

Students majoring in biology who wish to pursue a career teaching secondary school may consider applying for the [Secondary Education - Biology \(6-12\) Undergraduate Certificate](#) offered by the [College of Education and Human Development](#) as an option in seeking an initial Virginia teaching license.

Other routes to licensure include the [Biology, BA or BS/Curriculum and Instruction, Accelerated MEd](#) (Secondary Education Biology Concentration) or select traditional Master's programs. Please contact the [College of Education and Human Development](#) for more information.

Degree

Requirements:

Students should refer to the [Admissions & Policies](#) tab for specific policies related to this program.

Students must complete ~~their biology coursework and the program supporting requirements which follow~~ with a minimum GPA of 2.00.

All students must complete the [Biology](#) Core Courses [and the Supporting Core Courses](#) listed below. Students then elect to complete the BS degree either with a concentration or without a concentration.

BS without Concentration

This program provides a sound liberal arts education with substantial experience in quantitative and analytical thought. The BS without Concentration option provides students with the flexibility to explore and prepare for a career in a wide variety of disciplines, including: teaching, health sciences, environmental management, microbiology, molecular biology, biotechnology, genetics, wildlife management, fisheries biology, and marine science.

Students pursuing the BS without Concentration option must complete the curriculum requirements listed below:

~~Students who do not select an optional concentration must complete the biology core and shared courses shown above in addition to the curriculum requirements listed below.~~
