Description:

Analyzes topics of geographical or geospatial interest. May be repeated for credit when topics vary (up to 12 credits). ~~Analyzes topics of immediate interest. Notes: Content varies.~~

Justification:

What: Changing title

Why: Currently 3 of our 'topics' courses have different names (special, select, and selected). This will put them all as "Special Topics" courses. As well, it is more apt that this is Geography and Geoinformation science, not Geography (as we put both geography and geoinformation courses for graduates here)

What: Changing description

Why: Was vague; wanted to add a bit more detail to help students

What: Adding "May be repeated for credit when topics vary." to description.

Why: Saw a new CHEM special topics course use this in the description. We believe it will help students understand that they can take a course like this when content varies. Adding the credits clause to let students know how many credits are allowed overall in this course.

Does this course cover material which crosses into another department?
